

“Health Equity: When Community Benefit, REAL Data and Quality Improvement Collide” Webinar on July 22nd

ABOUT THE WEBINAR

The Children’s Hospitals’ Solutions for Patient Safety (SPS) Network—in collaboration with the American Hospital Association, the Children’s Hospital Association, St. Louis Children’s Hospital, and Boston Children’s Hospital—is hosting a webinar on July 22nd that will lead you through comprehensive discussions of health disparities work and key learnings that you can put into practice to address the social determinants of health and health disparities.

THE OBJECTIVES

The webinar objectives are:

- Summarize the results of the SPS Race, Ethnicity, and Language (REAL) Data Survey
- Share how Hospital Engagement Networks and pediatric hospitals are leveraging REAL Data
- Review a Root Cause Analysis on Readmissions in an inpatient unit
- Provide an overview of Community Benefit and how a pediatric asthma management program is reducing Asthma Readmissions
- Share best practices on Community Benefit, REAL Data and Quality Improvement

REGISTER TODAY!

July 22, 2016, 2:00-3:00 PM ET

Registration URL: <https://attendee.gotowebinar.com/register/4115563657104016899>

Webinar ID: 105-936-875

WHO SHOULD ATTEND

Leaders who are responsible for driving quality and patient safety endeavors would benefit from this webinar, including:

- Quality Improvement Leaders
- Hospital Leaders
- Community Benefit Staff
- Diversity & Inclusion Leaders

ABOUT THE PRESENTERS

To learn more about the webinar presenters, please see their bios on the page below.

ABOUT SPS

Children’s Hospitals’ Solutions for Patient Safety (SPS), a network of 100+ hospitals working to eliminate serious harm, comprises more than 50 percent of all children’s hospital admissions in the country. SPS is funded in part by the Cardinal Health Foundation, Children’s Hospital Association and the federal Partnership for Patients program.

SPS is hosting this webinar—in collaboration with the American Hospital Association, the Children’s Hospital Association, St. Louis Children’s Hospital, and Boston Children’s Hospital—to continue to spread learnings so that together, we can eliminate harm to patients in every children’s hospital—keep every patient safe, every day.

**Children’s Hospitals’
Solutions for
Patient Safety**
Every patient. Every day.

ABOUT THE PRESENTERS

Ms. Bolanle (Bola) Bukoye, MSPH, CPHQ, is a certified professional in healthcare quality currently working as Quality Improvement Analyst in Surgical Services at Boston Children's Hospital. In her role, she advises and collaborates with Nursing leaders, department Chiefs, front line clinical staff, and departmental administrators. She provides analytic, data management and methodological support for the development of performance indicators including a panel of high-level process and outcome measures. She also leads the development, implementation and evaluation of quality improvement initiatives including the hospital-wide readmissions effort which is part of a national collaborative to reduce hospital acquired conditions. She completed her master's degree in public health with a concentration in global health from the Harvard School of Public Health in 2010.

Lisa Glover-Jones, MPT, Supervisor of the St. Louis Children's Hospital Healthy Kids Express mobile health unit program, oversees Community Health Educators, Social Workers, Asthma Coaches, and Driving Specialists. Lisa is very passionate about bridging the gap between patients and their health care providers. She has over nine years of professional experience in health and wellness, working to provide health care to the community, ranging from physical therapy, health education, behavioral management, and health care supervision. She specializes in asthma and food allergy education and has designed school-aged educational intervention materials. Lisa co-coordinated project design and implementation of the Food Allergy Management & Education (FAME) Tool-kit for schools. During this time, she also co-facilitated the National FAME Advisory Board that lead to the FAME Tool-kit being distributed throughout the United States. In her day to day role, it is not only essential to provide exceptional patient care in the community but Lisa works to establish community collaborations that ensure outcomes which address patient needs.

Manuel Tomás León, MBA, is president and CEO of the Institute for Diversity in Health Management, an affiliate of the American Hospital Association. His leadership brings an innovative, inclusive and purpose-driven approach to promoting diversity within the health care field. León has two decades of experience in community mobilization, diversity and inclusion, business development, public health, policy advocacy, philanthropy and marketing communications from his previous senior executive roles: President and CEO of the People of Color Network, Inc., Vice President of the Community Foundation of Southern Arizona, President and CEO of the Tucson Hispanic Chamber of Commerce, Executive Director of Youth On Their Own, Inc. and Associate Director of the Border Health Foundation. León holds a bachelor's degree in psychology from The University of Arizona and an MBA from the University of Phoenix.

Lisa Meadows, APN-BC, is the Manager of Healthy Kids Express for Child Health Advocacy & Outreach at St. Louis Children's Hospital (SLCH). She has served with distinction for over 20 years and is seen as the driving force behind Healthy Kids Express Asthma. Lisa transitioned from General Surgery into community health in 2001. Lisa's far reaching vision for community programs is evident. She developed two free standing programs at SLCH: the Pediatric Ambulatory Wound Clinic (P.A.W.S) in 1994 and in 2004 she developed a demonstration model for asthma care directly in the schools. Lisa learned firsthand through her work that asthma was the number one unaddressed need among medically underserved children in St. Louis. As a recipient of the St. Louis Chapter of Pediatric Nurse Practitioners, PNP of the Year award (2010), she serves as a liaison to the community. Her research and areas of expertise have been published in medical textbooks and medical/research articles relating to asthma and other medical care subjects. Lisa brings her community health expertise and passion to building the relationships that bring additional benefit to program participants, school nurses, and works with primary care providers to ensure success for each child.
